## Title) TYTANIA

Genre) Anime

Format) 26x24'

Synopsis) After advancing into the vast universe, humans established a Federation of interstellar city-states. But the age of the all powerful Federation does not last as long as everyone believed it would. A clan named Tytania breaks away and succeeds in usurping supremacy. Then, course of history begins to take yet another huge turn in the era of Tytania's 8th commander Ajumahn, when a clash with a city-state of the Federation named Eulia results in an unexpected defeat for Duke Aliabert. One of the heads of the five Tytania families loses at the hands of an unknown genius strategist, Van Gulik.

Thus begins the monstrous struggle over who will next rule the universe.

Based on the super-hit science fiction of the same title, the "space opera" finally comes alive in an animated series!

## Title) The Twelve Kingdoms

Genre) Anime

Format) 39x25'

Synopsis) The fantasy novel series "The Twelve Kingdoms" was begun in 1992 and so far comprises seven volumes. The novel received ardent support from readers in a wide range of age groups and, with some 15 million copies in print, has become a best-selling masterpiece. Now, this dazzling epic is brought to life as a hit TV animation series.

The story begins in our everyday world, when an ordinary high-schooler named Yoko is suddenly confronted by a mysterious blond-haired young man, and told of her destiny. "You are to become the monarch of our kingdom of Kei," he informs her, wherein she is forcefully hauled away into an alien other-world. Thus, Yoko enters a fantastic and magical sphere, reminiscent of that of Chinese mythologies.

# Title) Bodypedia

Genre) educational

Format) 26x10'

Synopsis) A stylish medical science program targeting 5 to 8-year-olds. The series, which is divided into several episodes made up of 1 to 3-minute segments, explores the beauty and mystery of the human body by using cute animated organ characters and high quality 4K/8K microscope images. It also makes use of CGs, employing the techniques that were accumulated from the NHK special series "The Body", to show the amazing world inside us and to offer a unique perspective on the human body, often through subtle comedy in order to engage the younger audience.

## Title) Design Ah!

Genre) educational

Format) 4 seasons -80x15'~20'

(Season1:20x15' Season2:20x15' Season3:20x15' Season4 20x20')

Synopsis) Design covers many areas, including product, costume, character, building, and music design. The common aim of design is to find an object's essence through observation and insight. The design should embody ease of use, beauty, and comfort by incorporating inventive ideas and ingenuity. Taking a fresh look from a design perspective at the objects and spaces around us that we take for granted, *Design Ah!* encourages children and adults alike to discover the fun and fascination of design and provides the first steps for cultivating "design thinking."

## Title) It's a Cat's Life

Genre) travelogue

Format) 13x29'

Synopsis) Following the footsteps of felines from around the world.

Where there are people, there are likely to be cats. Follow internationally-renowned wildlife photographer Mitsuaki Iwago as he works his magic to capture cats around the world as only he can in this one-of-a-kind animal/travel series. City cats, farm cats, house cats, and not-so-house cats—they all play guides for Iwago's camera, giving us glimpses of their cities, stores, and famous World Heritage sites. With the cameras at cat-level, see what cats see, think, and do. Enjoy 30 minutes of cat-ful-ness!
